

February 13th, 2023

Dear Parents and/or Guardians,

We are requesting your consideration and cooperation for the safety of our students and staff in the morning drop off and afternoon pickup. We have encountered several 'near miss' situations involving students, staff and vehicles in the 'School Bus' drop off area and 'Drop and Go'.

- Parking & Student Drop off
 - Please **do not block** community members' driveways. We have received several complaints from community members that are blocked in their driveways.
 - The north parking lot is designated parking for staff with assigned stalls. We do not have supervision in that parking lot and for the safety of our students we ask our parents to use the "Drop and Go" lane, the visitor parking lot (south), or along the street.
 - Parents are to use the south parking lot or streetside parking when dropping off or picking up children. The 'Drop and Go' can also be used but please remember to stay in your vehicle for your children to come to you. **Vehicles are not to be left unattended in order for traffic to flow effectively.** Be advised that access to the south parking lot is through the 'Drop and Go.' The south end is an 'Exit Only' to keep traffic flowing safely.
 - We ask that you do not **double park** in the 'Drop and Go', this is a single lane thruway for traffic. This has caused significant safety issues for students, vehicles accessing the 'Drop and Go' and as well has caused significant vehicle back ups on Carrington Drive and Clearview Drive.

God Bless,

Mr. Shane Chisholm
Principal

Mrs. Diane Kulczycki
Vice Principal
